RAIN "DEARS"
Spring showers are fun when you're wearing a smart new raincoat that takes to water like a duck! Many of the new spring styles are also designed for fair-weather wear, thereby doing double duty.

Specially treated cotton tapestries are popular in three-quarter length styles, while the traditional yellow "sliker" in rubberized fabric is featuring cane-sleeves for a new look. The trench coat, with its air of foreign intrigue, is now a classic in specially treated combed cotton poplin.
